Neurolymphatic reflex pressure points help stimulate the lymphatic system, and myofascial trigger points release key muscle groups. Firm pressure creates space within the body, helping improve posture and flexibility, as well as supporting gut health through abdominal and foot work. Detoxification is encouraged throughout this treatment, so you leave lighter and more balanced.

Beginning with the signature breathing ritual for maximum relaxation, this de-stressing treatment targets high-tension areas, and encourages a release through deep relaxation. To do this, we use a bespoke system of soothing massage, lymphatic stimulation, myofascial release and a pressure point massage of the back and feet.
